

Farnsworth Group, Inc. is a full-service engineering and architectural firm with offices and employment opportunities located throughout a nationwide network of offices. Farnsworth Group is an employee-owned company with a rich 100-year history that offers an impressive benefits and compensation program, in addition to excellent career development opportunities. We are always looking for exceptional and talented employees who are passionate about their craft and the solutions we provide to our clients. We have the following position available:

**Engineering Manager  
Colorado Springs, CO**

This is a unique and exciting opportunity for an experienced Municipal Water/Wastewater/Civil Engineer to join our team in our Colorado Springs, CO office. This key leadership position will work to build a client focused, technically excellent municipal and water/ wastewater engineering team to serve clients in the state of Colorado and the western region of our company.

Qualified candidates will provide technical leadership related to water/ wastewater engineering as well as have an entrepreneurial drive to develop business opportunities. Specific responsibilities include cultivating strong client relationships, leading marketing activities, building a local team, developing and mentoring staff, collaborating with other disciplines, establishing and maintaining budgets, and working in partnership with leadership throughout the company. The position will involve close coordination with the existing established team of water and wastewater engineers located in our Fort Collins, CO office.

**Specific Requirements include:**

- Bachelors in Civil or Environmental Engineering required
- Masters in Civil or Environmental Engineering or a related program, preferred
- 10+ years of Municipal/ Water/Wastewater/ Storm Water Engineering experience
- Licensed Professional Engineer, in the State of Colorado
- Experience working with local, state and special district organizations
- Ability to effectively manage clients and participate in and lead business development activities
- Strong team player that can manage and contribute to several projects simultaneously
- Proven leadership skills with engineering staff and organizations

**We offer a competitive salary and benefits program that includes:**

- Medical/Dental Plans
- Prescription Drug Program
- Vision Plan
- 401(k) with Company Match
- Tuition Reimbursement
- Flexible Spending Account
- Time-off Benefits
